Bio Sanitisers, Bio Disinfectants, Bio Fumigants, Specialised Cleaning Agents, Manufacture, Source & Supply Natural Active Ingredients, Contract Manufacturing

SPRAY DRYING CONTRACT MANUFACTURING

Spray Drying produces a dry powder from a liquid or slurry by rapidly drying with a hot gas and sticking the liquid to a carrier like multi dextron.

Spray Drying is the preferred method of drying many sensitive materials for the food, health supplement, cosmetic and pharmaceutical industries.

ADVANTAGE

Spray drying creates a free flowing powder. It is less expensive than freeze drying, fast and suitable for small batch sizes

COMPETITIVE PRICING

Our simple pricing structure consists of:

A once off establishment fee.

A fixed price per kilo priced according to volume.

APPLICATIONS

**AGRICULTURE
INDUSTRIAL
CLEANING, DISINFECTING
SANITISING, FUMIGATION**
